

# PATIENTS AS PARTNERS

**Evaluating international patient experiences of Public Patient Involvement (PPI) and discussing the potential to embed PPI in Irish healthcare reform.**

**15:00 - 15:15** Introductions from Derick Mitchell, Chief Executive of IPPOSI

**15:15 - 15:45** **Patients as Partners in Co-Production (They also have expertise!!)**

Patient partner and advocate, Carol Munt, will discuss the real value and impact in involving patients as co-producers drawing on her own extensive experiences in the UK. Carol is a Patient Partner & Advocate with extensive experience in the UK Health System and has worked as a patient partner with the NHS across a number of groups and initiatives. Carol was also a registered nurse so she offers a unique perspective on evaluation of the impact of patient involvement from a healthcare professional perspective.

**15:45 - 16:15** **Patients First – Partnering with patients at policy level.**

Interview with Julie Drury assessing the value of involving patients at policy level drawing on her experiences as a patient advocate at policy level. Julie is the Strategic Lead at Patient Partnership for the Canadian Foundation for Healthcare Improvement and served as the inaugural Chair of Ontario's first ever health advisory council, the Patient and Family Advisory Council. As the mother of a child who was diagnosed with SIFD, a rare form of mitochondrial disease, Julie has particular experience in system navigation, complex care, care coordination, palliative care, and patient safety.

**16:15-16:30** **The future of public and patient involvement in Ireland**

An interview with Laura Magahy, Executive Director, Sláintecare discussing future commitments and the proposed framework for patient involvement in Irish healthcare.

**16:30 - 17:00** **Panel Discussion and Q&A**

Your opportunity to put your questions to our panellists.

*This event was made possible through a combination of IPPOSI resources and a number of unrestricted grants from the following IPPOSI Industry members: Bristol-Meyers Squibb, Janssen Ireland, Novartis Ireland Ltd, Sanofii Aventis Ireland Ltd, Takeda Products Ireland & UCB Pharma Ltd*
